## LATAM ULD fleet to be fully digitised by Unilode

Media Release – 22 October 2019

LATAM Cargo Group and Unilode Aviation Solutions are enhancing their collaboration through the roll-out of Unilode's state-of-the-art ULD digital tracking solution to LATAM's entire ULD fleet. Following the successful outsourcing of LATAM's entire ULD management operation to Unilode in 2016, this development is another major milestone in a partnership that has seen the opening of a bespoke ULD repair centre in Santiago de Chile and an optimised ULD supply enabling LATAM to focus on fulfilling its growth ambitions.

Mr. Andrés Bianchi, LATAM Cargo CEO, said: "At LATAM we are focusing on reinforcing LATAM Cargo's competitiveness in order to maintain our leadership in Latin America. Unilode's digitalisation program will provide LATAM with opportunities to enhance our product offering by improving visibility and adding features such as temperature monitoring of the tracking devices that will be fitted to our containers and pallets."

Mr. Benoît Dumont, Unilode CEO, said: "LATAM is a strategic customer for Unilode, one we are proud to have in our portfolio. Both parties have worked closely together over the last three years and I am delighted that we are now taking our partnership to the next level through our digitalisation program. Our innovative solution will give both parties even more visibility and control of ULD movements, and provide LATAM with exciting new possibilities to stand out from their competition and increase revenues in the segments that they are strong in, like fresh produce."

**About Unilode:**

Unilode Aviation Solutions owns and manages the world's largest fleet of approximately 140,000 unit load devices (ULDs), for use in the aviation industry, and owns and operates the largest global network for the maintenance and repair of ULDs and inflight food service equipment. Unilode provides management, repair, short term leasing and digitalisation solutions to more than 90 airlines through a network of more than 480 airports, 18 regional offices and 50 certified repair stations, supported by more than 650 colleagues. For more information visit [www.unilode.com](http://www.unilode.com).

**About LATAM Cargo Group:**

LATAM Cargo Group is the dedicated air cargo business of LATAM Airlines. It transports freight in the belly of 322 passenger aircraft as well as in its 10 freighters - it will increase to 11 at the end of 2019.

The group offers a modern infrastructure, a wide range of services and care options to fulfill the customers' needs and a robust network offering services to more than 140 destinations in 25 countries, including six domestic markets in Latin America – Argentina, Brazil, Chile, Colombia, Ecuador and Peru – in addition to

international operations in Latin America, Europe, the United States, the Caribbean, Oceania, Africa and Asia.

The group has one of the largest and most modern warehouse and cooler facilities at the Miami International Airport, which ranks among the top five airports for air freight traffic worldwide.

During 2018 the group transported 921 thousand tons.
